

# See LUSAS Bridge and LUSAS Civil & Structural software

at the Engineering Chamber, Kneza Milosa 9/II, 11000, Belgrade

## invitation

Tuesday, 4th September 2007

Engineering Chamber,  
Kneza Milosa 9/II, 11000,  
Belgrade

Dear Sir /Madam

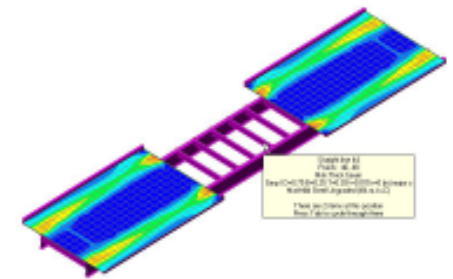

An invitation to see LUSAS structural analysis software in Belgrade

I am pleased to announce that, in conjunction with LUSAS, a presentation of its LUSAS Bridge and LUSAS Civil & Structural software will take place at the Engineering Chamber, Kneza Milosa 9/II, 11000, Belgrade on 4th September 2007.

Presentations will be given on the key features and facilities in LUSAS software that can be of use to you in your design office or university.

Attendance at this event is free but you will need to book in advance to reserve your place. By holding a free regional event I hope to make it easy for you to come along and see us.

Please register your interest to come along to see the features in LUSAS software for these applications and to discuss your general modelling and analysis issues with myself, LUSAS staff and fellow engineers in an informal environment.

### Session times

### Topics

9.00 - 9.30

Arrival

9.30 - 10.30

**General Modelling and Analysis :**  
Advanced Modelling, Auto Shell and Volume Meshing, CAD Integration, Latest Features in LUSAS Version 14

10.30 - 11.00

Refreshment break

11.00 - 12.00

**Bridge Engineering :**  
Highway and Rail Loading, Time-stage and Post-Tensioning, High Speed Rail Dynamics.

12.00 - 12.30

Refreshment break

12.30 - 13.30

**Civil and Structural Engineering :**  
Building Construction including RC Design, Ground Engineering, Blast and Fire Analysis

## Yes please, I'd like to attend...

If you, or any of your colleagues, would like to attend please register your interest by emailing **Prof. dr Dragoslav Sumarac**, President of the Engineering Chamber, at [predsednik@ingkomora.org.yu](mailto:predsednik@ingkomora.org.yu)  
You will then be advised further.

We hope you will be able to attend the event.

Yours faithfully,

dr Dubravka Mijuca, docent  
Univerzitet u Beogradu
